# Wire EDM

## OUR COMPANY

Northwest Tool & Manufacturing, Inc. began in 1965 as a small machine shop that provided machining service to local factories. Throughout the years, NorthwestTool has gained the reputation of being a preferred source of precision machined parts.

Northwest Tool has committed to continually improving to consistently meet our customers needs. This means utilizing the most modern machinery and exceptional people to provide outstanding quality.

*Wire EDM allows us to do  
more intricate work than  
traditional machining methods  
can achieve.*

## WHY CHOOSE US?

### *Quality*

Our team at Northwest Tool & Manufacturing takes pride in the outstanding quality of our work. Quality is one of our number one focuses at Northwest Tool & Manufacturing. Our skilled Wire EDM machinists are dedicated to continually improving their skill sets and exceeding the quality our customers require.

### *Capabilities*

Our EDM Department consists of 3 state-of-the-art Wire EDM's. Our most recent addition in 2020 expanded our size capabilities and grew our efficiency in our Wire EDM Department.

In our Wire EDM Department, we can hold a tolerance of .0001". Capacities includes 15.75" x 23.5" travel, 4 axis capability and 16" Z Height. Our wire diameters range from .004 – .013" and we also have Molybdenum Wire capabilities.

### *Features*

Mitsubishi DWC 90HA  
Mitsubishi MV2400-ST with M800 Series Control  
Mitsubishi FA10P Submerged Wire

All EDM work is done in a temperature controlled room by exceptional machinists with over 30 years of experience in the trade.
